Georgia Internet Access during COVID-19

With the adjustment to online class instruction still in progress, we know some of our students may be experiencing difficulties in accessing courses or content due to internet service and availability. Governor Brian Kemp, the state's Coronavirus Task Force and the Georgia Department of Community Affairs have launched a webpage to provide information to Georgians with resources to locate available Wi-Fi hotspots and find broadband providers who are temporarily offering various options to get Georgians internet connectivity.

If you need to find a Wi-Fi hotspot or to look into free or low-cost internet options near you, follow this link: https://broadband.georgia.gov/georgia-internet-access-covid-19-update. Continue to check the site regularly, as they will be adding new locations in the coming weeks and updating information.

For issues relating to SGSC Information Technology (Student Email, Banner Web, GeorgiaView, etc.), submit a Hawk Helper ticket for assistance.
