

Employment Rates for the Associate of Science in Nursing

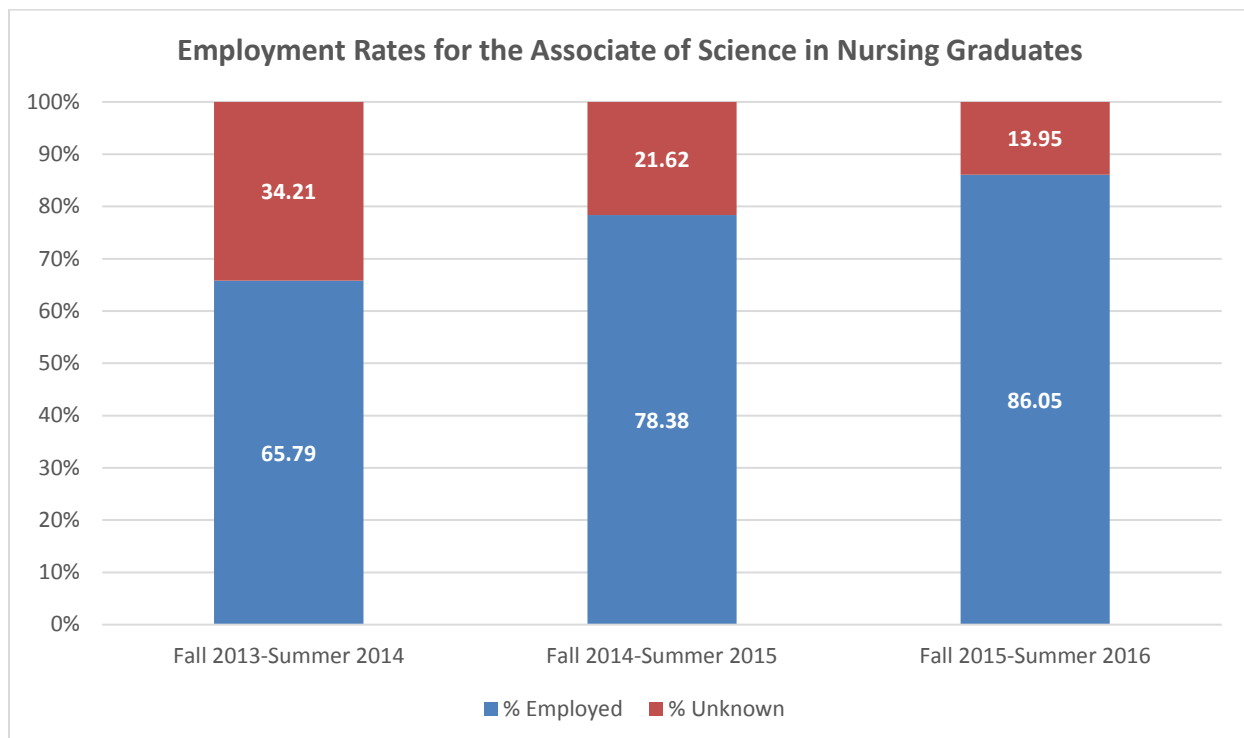

The School of Nursing monitors employment rates for each cohort in the Associate of Science in Nursing (ASN). The School of Nursing has set its benchmark at the fall 2013/summer 2014 cohort and maintain the employment rate for either full-time or part-time employment at 90%.

Exhibit 1 illustrates the School of Nursing's employment rates for each cohort.

Exhibit 1: South Georgia State College Employment Rates for the Associate of Science in Nursing

Employment Rates for the Associate of Science in Nursing Graduates					
Cohort	N Graduated	N Employed	% Employed	N Unknown	% Unknown
Fall 2013-Summer 2014	76	50	65.79	26	34.21
Fall 2014-Summer 2015	74	58	78.38	16	21.62
Fall 2015-Summer 2016	43	37	86.05	6	13.95

Note: "% Employed" is defined as the number of graduates contacted successfully and employment was verified. "% Unknown" is defined as the number of graduates contacted unsuccessfully and employment was not able to be determined.
